<b>Título publicación</b>	<b>Fuente</b>	<b>Tipo</b>	<b>Fecha</b>
Ideal cardiovascular health and liver enzyme levels in european adolescents; the helena study.	Journal of physiology and biochemistry	Articulo	2017
An exercise-based randomized controlled trial on brain, cognition, physical health and mental health in overweight/obese children (activebrains project): rationale, design and methods.	Contemporary clinical trials	Articulo	2016
Dietary fat intake modifies the influence of the fto rs9939609 polymorphism on adiposity in adolescents: the helena cross-sectional study	Nutrition, metabolism, and cardiovascular diseases	Articulo	2016
Fitness and fatness in relation with attention capacity in european adolescents: the helena study	Journal of science and medicine in sport	Articulo	2016
Fragmentation of daily rhythms associates with obesity and cardiorespiratory fitness in adolescents: the helena study	Clinical nutrition	Articulo	2016
Cardiorespiratory fitness and ideal cardiovascular health in european adolescents	Heart	Articulo	2015
Liver enzymes and clustering cardiometabolic risk factors in european adolescents: the helena study	Pediatric obesity	Articulo	2015
Cardiorespiratory fitness and ideal cardiovascular health in european adolescents	Heart	Articulo	2014
Health inequalities in urban adolescents: role of physical activity, diet, and genetics	Pediatrics	Articulo	2014
High fat diets are associated with higher abdominal adiposity regardless of physical activity in adolescents; the helena study.	Clinical nutrition	Articulo	2014
Physical activity, sedentary time, and liver enzymes in adolescents: the helena study.	Pediatric research	Articulo	2014
Systematic review and proposal of a field-based physical fitness-test battery in preschool children: the prefit battery	Sports medicine	Articulo	2014
A weight loss diet intervention has a similar beneficial effect on both metabolically abnormal obese and metabolically healthy but obese premenopausal women.	Annals of nutrition and metabolism	Articulo	2013
Effects on adolescents' lipid profile of a fitness-enhancing intervention in the school setting; the edufit study.	Nutrición hospitalaria	Articulo	2013
Objectively measured physical activity and sedentary time in european adolescents	The international journal of behavioral nutrition and physical activity	Articulo	2013
Physical activity attenuates the negative effect of low birth weight on leptin levels in european adolescents; the helena study	Nutrition, metabolism, and cardiovascular diseases	Articulo	2013
Sexual dimorphism in the early life programming of serum leptin levels in european adolescents: the helena study	Journal of clinical endocrinology & metabolism	Articulo	2013
Use of different accelerometer models at baseline and follow-up in cohort studies	Medicine and science in sports and exercise	Articulo	2013
Association of exclusive breastfeeding duration and fibrinogen levels in childhood and adolescence: the european youth heart study	Archives of pediatrics & adolescent medicine	Articulo	2012
Bicycling to school is associated with improvements in physical fitness over a 6-year follow-up period in swedish children	Preventive medicine	Articulo	2012
Body size at birth modifies the effect of fat mass and obesity associated (fto) rs9939609 polymorphism on adiposity in adolescents: the healthy lifestyle in europe by nutrition in adolescence (helena) study	The british journal of nutrition	Articulo	2012
Breakfast habits among european adolescents and their association with sociodemographic factors: the helena (healthy lifestyle in europe by nutrition in adolescence) study	Public health nutrition	Articulo	2012

nutrition in adolescence) study

Exclusive breastfeeding duration and cardiorespiratory fitness in children and adolescents	The american journal of clinical nutrition	Articulo	2012
Lower plasma namp/visfatin levels are associated with impaired hepatic mitochondrial function in non-diabetic obese women: a potential link between obesity and non-alcoholic fatty liver disease	Nutrition, metabolism, and cardiovascular diseases	Articulo	2012
Associations of birth weight with serum long chain polyunsaturated fatty acids in adolescents; the helena study		Articulo	2011
Exclusive breastfeeding duration and cardiorespiratory fitness in children and adolescents	The american journal of clinical nutrition	Articulo	2011
Insulin sensitivity at childhood predicts changes in total and central adiposity over a 6-year period	Int j obes	Articulo	2011
Physical activity attenuates the negative effect of low birth weight on leptin levels in european adolescents; the helena study	Nutrition, metabolism, and cardiovascular diseases	Articulo	2011
Preliminary findings on the role of plin1 polymorphisms on body composition and energy metabolism response to energy restriction in obese women	Br j nutr	Articulo	2011
Stability of the factorial structure of metabolic syndrome from childhood to adolescence: a 6-year follow-up study	Cardiovascular diabetology	Articulo	2011
Validity of resting energy expenditure predictive equations before and after an energy-restricted diet intervention in obese women		Articulo	2011
