

ANTONIO GABRIEL LÓPEZ HERRERA

Grupo de Investigación: **SOFT COMPUTING Y SISTEMAS DE INFORMACIÓN INTELIGENTES**
(Cod.: TIC186)

Departamento: Universidad de Granada. Ciencias de la Computación e Inteligencia Artificial

Citas en Google Scholar: <https://scholar.google.es/citations?user=3zoQAYkAAAAJ&hl=es>

Código ORCID: <http://orcid.org/0000-0001-8424-275X>

RG: https://www.researchgate.net/profile/AG_Lopez-Herrera

Mendeley: <https://www.mendeley.com/profiles/antonio-g-lopez/>

Código: 46238

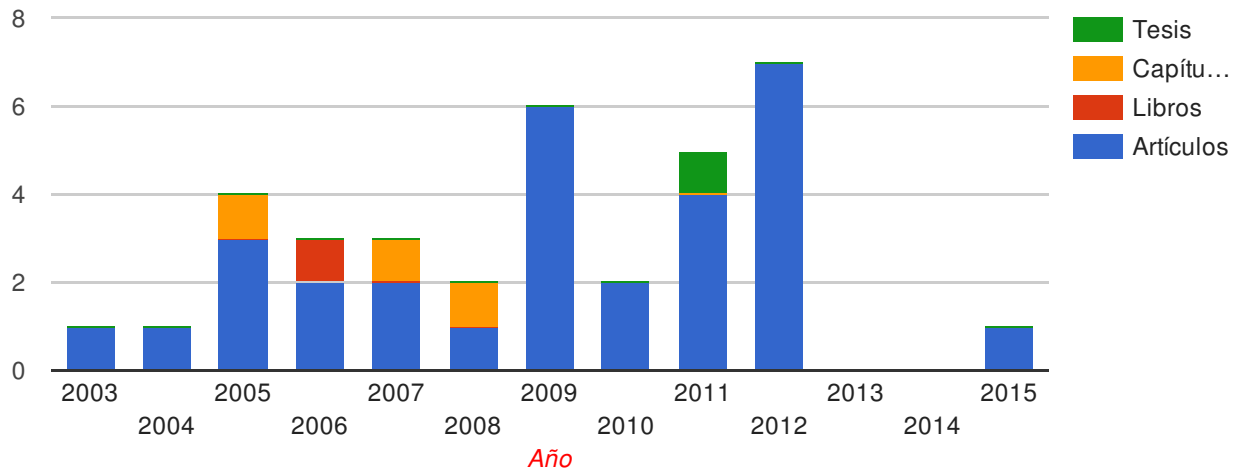

Ficha del Directorio

Producción 35

Artículos (30) Libros (1) Capítulos de Libros (3) Tesis dirigidas (1)

Evolución producción

Proyectos dirigidos 0

Proyectos (0) Contratos (0) Convenios (0)

Actividades 0

Título publicación	Fuente	Tipo	Fecha
A relational database model for science mapping analysis	Acta polytech hung	Articulo	2015
A conceptual snapshot of the first 10 years (2002-2011) of the international journal of information technology & decision making	International journal of information technology and decision making	Articulo	2012
A note on the its topic evolution in the period 2000-2009 at t-its	IEEE transactions on intelligent transportation systems	Articulo	2012
An application of co-word analysis and bibliometric maps for detecting the most highlighting themes in the consumer behaviour based research from a longitudinal perspective	Quality and quantity	Articulo	2012
An application of co-word analysis and bibliometric maps for detecting the most highlighting themes in the consumer behaviour research from a longitudinal perspective	Quality and quantity	Articulo	2012
Applying an automatic approach for showing up the hidden themes in financial marketing research (1961-2010)	Expert systems with applications	Articulo	2012
Applying an automatic approach for showing up the hidden themes in financial marketing research (1961-2010)	Expert systems with applications	Articulo	2012
Scimat: a new science mapping analysis software tool	Journal of the american society for information science and technology	Articulo	2012
An application of co-word analysis and bibliometric maps for detecting the most highlighting themes in the consumer behaviour research from a longitudinal perspective	Quality and quantity	Articulo	2011
An approach for detecting, quantifying, and visualizing the evolution of a research field: a practical application to the fuzzy sets theory field	Journal of informetrics	Articulo	2011
Sketching the first forty-five years of the journal psychophysiology (1964-2008): a co-word based analysis	Psychophysiology	Articulo	2011
Scimat: herramienta software para el análisis de la evolución del conocimiento científico. propuesta de una metodología de evaluación		Tesis doctoral	2011
Science mapping software tools: review, analysis and cooperative study among tools	Journal of the american society for information science and technology	Articulo	2011
A bibliometric study about the research based on hybridating the fuzzy logic field and the other computational intelligent techniques: a visual approach	International journal of hybrid intelligent systems	Articulo	2010
A review on information accessing systems based on fuzzy linguistic modelling	International journal of computational intelligence systems	Articulo	2010
A computer-supported learning system to help teachers to teach fuzzy information retrieval systems	Information retrieval	Articulo	2009
A recommender system for research resources based on fuzzy linguistic modeling	Expert systems with applications	Articulo	2009
A study of the use of multi-objective evolutionary algorithms to learn boolean queries: a comparative study	Journal of the american society for information science and technology	Articulo	2009
Applying multi-objective evolutionary algorithms to the automatic learning of extended boolean queries in fuzzy ordinal linguistic information retrieval systems: special issue: the application of fuzzy logic and soft computing in information management	Fuzzy sets and systems	Articulo	2009

in information manage			
Modelo predictivo colaborativo de apoyo al diagnóstico en servicio de urgencias psiquiátricas	Revista ibérica de sistemas e tecnologías de informação	Articulo	2009
Visualization and evolution of the scientific structure of fuzzy sets based reseach in spain	Information research	Articulo	2009
A fuzzy linguistic recommender system to advice research resources in university digital libraries	Fuzzy sets and their extensions : representation, aggregation and models : intelligent systems from decision making to data mining, web intelligence and computer vision	Capítulo de libro	2008
Applying aggregation operators for information access systems: an application in digital libraries	International journal of intelligent systems	Articulo	2008
A fuzzy linguistic irs model based on a 2-tuple fuzzy linguistic approach	International journal of uncertainty, fuzziness and knowledge-based systems	Articulo	2007
A model of an information retrieval system with unbalanced fuzzy linguistic information	International journal of intelligent systems	Articulo	2007
Multi-objective evolutionary algorithms in the automatic learning of boolean queries: a comparative study	Theoretical advances and applications of fuzzy logic and soft computing	Capítulo de libro	2007
Evaluating the information quality of web sites: a methodology based on fuzzy computing with words	Journal of the american society for information science and technology	Articulo	2006
Improving the user-system interaction in a web multi-agent system using fuzzy multi-granular linguistic information	Lecture notes in computer science	Articulo	2006
Modelos de sistemas de recuperación de información documental basados en información lingüística difusa	Universidad de granada	Libros	2006
A multi-granular linguisitic model to evaluate the suitability of installing an erp system	Mathware & soft computing	Articulo	2005
In-recs: índice de impacto de las revistas españolas de ciencias sociales una nueva herramienta para medir el impacto de la investigación española	Biblio 3w	Articulo	2005
Techniques to improve multi-agent systems for searching and mining the web.	Intelligent data mining.techniques and applications	Capítulo de libro	2005
Tuning the matching function for a threshold weighting semantics in a linguistic information retrieval system	International journal of intelligent systems	Articulo	2005
Incorporating filtering techniques in a fuzzy linguistic multi-agent model for information gathering on the web	Fuzzy sets and systems	Articulo	2004
A model of fuzzy linguistic irs based on multi-granular linguistic information.	International journal of approximate reasoning	Articulo	2003
