

# JOSE ALFONSO DE LEON MOLINA

Grupo de Investigación: **PSIQUIATRÍA Y NEUROCIENCIAS (Cod.: CTS549)**

Departamento: University of Kentucky. Mental Health Research Center at Eastern State Hospital  
Lexington

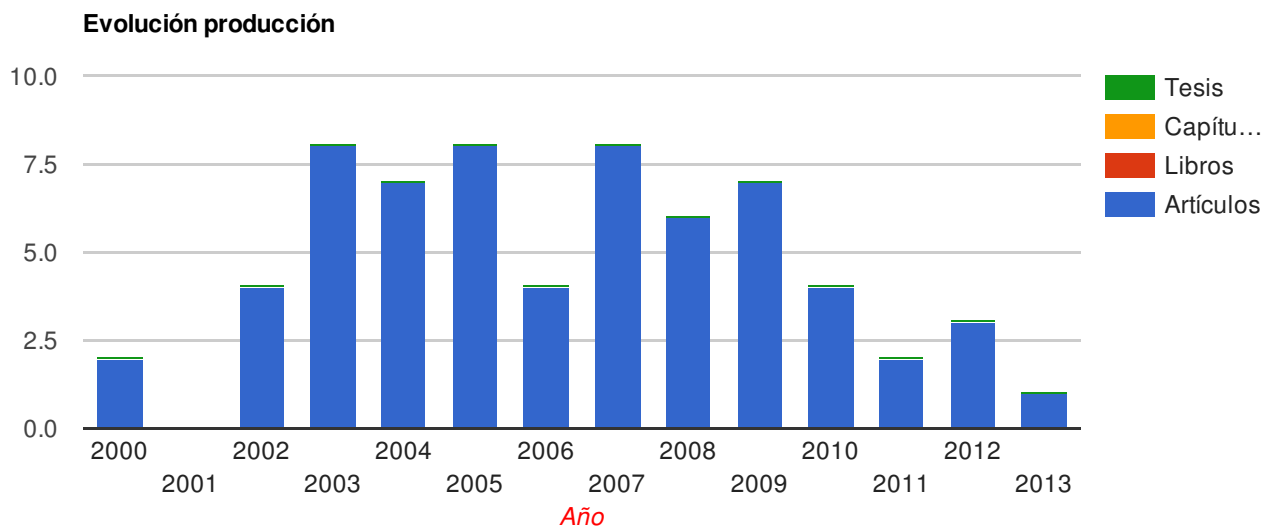

Código: 47911

Ficha del Directorio

## Producción 64

Artículos (64) Libros (0) Capítulos de Libros (0) Tesis dirigidas (0)

## Proyectos dirigidos 0

Proyectos (0) Contratos (0) Convenios (0)

## Actividades 0

Titulo publicación	Fuente	Tipo	Fecha
Globazam therapeutic drug monitoring: a comprehensive review of the literature with proposals to improve future studies	Therapeutic drug monitoring	Articulo	2013
Evidence-based medicine versus personalized medicine: are they enemies?		Articulo	2012
Genetics of schizophrenia and smoking: an approach to studying their comorbidity based on epidemiological findings	Hum genet	Articulo	2012
Validation of candidate genes associated with cardiovascular risk factors in psychiatric patients	Prog neuropsychopharmacol biol psychiatry	Articulo	2012
Highlights of drug package inserts and the website dailymed: the	Journal of clinical psychopharmacology	Articulo	2011
Paying attention to pharmacokinetic and pharmacodynamic mechanisms to progress in the area of anticholinergic use in geriatric patients	Curr drug metab	Articulo	2011
Do atypical antipsychotic drugs reduce the risk of ischemic heart disease and mortality?		Articulo	2010
Pharmacokinetic drug-drug interactions between olanzapine and valproate need to be better studied.	Journal of clinical psychiatry	Articulo	2010
Qtc interval in a sample of long-term schizophrenia inpatients		Articulo	2010
The pharmacokinetics of paliperidone versus risperidone	Psychosomatics: the journal of consultation and liaison psychiatry	Articulo	2010
Acetyl-coenzyme a carboxylase alpha gene variations may be associated with the direct effects of some antipsychotics on triglyceride levels.		Articulo	2009
Effect of valproate on olanzapine plasma concentrations in patients with bipolar or schizoaffective disorder.	Therapeutic drug monitoring	Articulo	2009
How should research productivity be assessed in early career psychiatric researchers? research funding versus scientific productivity.	Journal of clinical psychiatry	Articulo	2009
Pharmacogenomics: the promise of personalized medicine for cns disorders	Neuropsychopharmacology	Articulo	2009
Pharmacokinetic drug interaction studies must consider pharmacological heterogeneity, use of repeated dosing, and translation into a message understandable to practicing clinicians.	Journal of clinical psychopharmacology	Articulo	2009
The future (or lack of future) of personalized prescription in psychiatry.	Pharmacological research	Articulo	2009
Tobacco smoking behaviors in bipolar disorder: a comparison of the general population, schizophrenia, and major depression.	Bipolar disorders	Articulo	2009
A preliminary attempt to personalize risperidone dosing using drug-drug interactions and genetics. part i	Psychosomatics	Articulo	2008
A preliminary attempt to personalize risperidone dosing using drug-drug interactions and genetics: part ii	Psychosomatics: the journal of consultation and liaison psychiatry	Articulo	2008
Exploring genetic variations that may be associated with the direct effects of some antipsychotics on lipid levels		Articulo	2008
Paradoxical excitation on diphenhydramine may be associated with being a cyp2d6 ultrarapid metabolizer: three case reports	Cns spectrums	Articulo	2008
Pharmacogenetic testing in psychiatry: a review of features and clinical realities	Clinics in laboratory medicine	Articulo	2008
The potential of genotyping	Science	Articulo	2008
A clinical study of the association of antipsychotics with		Articulo	2007

hyperlipidemia		Articulo	2007
A study of genetic (cyp2d6 and abcb1) and environmental (drug inhibitors and inducers) variables that may influence plasma risperidone levels	Pharmacopsychiatry	Articulo	2007
Epidemiology of comorbid tobacco use and schizophrenia: thinking about risks and protective factors	Journal of dual diagnosis	Articulo	2007
Planning for the optimal design of studies to personalize antipsychotic prescriptions in the post-catie era: the clinical and pharmacoepidemiological data suggest that pursuing the pharmacogenetics of metabolic syndrome complications (hypertension, d		Articulo	2007
Subjective effects and the main reason for smoking in outpatients with schizophrenia: a case-control study.	Comprehensive psychiatry	Articulo	2007
The crucial role of the therapeutic window in understanding the clinical relevance of the poor versus the ultrarapid metabolizer phenotypes in subjects taking drugs metabolized by cyp2d6 or cyp2c19	Journal of clinical psychopharmacology	Articulo	2007
The effect of atypical versus typical antipsychotics on tardive dyskinesia: a naturalistic study	European archives of psychiatry and clinical neuroscience	Articulo	2007
Weight gain during a double-blind multidosage clozapine study	Journal of clinical psychopharmacology	Articulo	2007
Amplichip cyp450 test: personalized medicine has arrived in psychiatry	Expert review of molecular diagnostics	Articulo	2006
Does smoking reduce akathisia? testing a narrow version of the self-medication hypothesis.		Articulo	2006
Fewer but heavier caffeine consumers in schizophrenia: a case-control study.		Articulo	2006
Response to hydrocodone, codeine and oxycodone in a cyp2d6 poor metabolizer	Progress in nneuro-psychopharmacology & biological psychiatry	Articulo	2006
A meta-analysis of worldwide studies demonstrates an association between schizophrenia and tobacco smoking behaviors.		Articulo	2005
Comparison of the heavy smoking index and of the fagerstrom test for nicotine dependence in a sample of 749 cigarette smokers.	Addictive behaviors	Articulo	2005
Does clozapine decrease smoking?	Progress in nneuro-psychopharmacology & biological psychiatry	Articulo	2005
Nicotine dependence and symptoms in schizophrenia - naturalistic study of complex interactions	Psychological medicine	Articulo	2005
Obesity and associated complications in patients with severe mental illnesses: a cross-sectional survey	Journal of clinical psychiatry	Articulo	2005
Smoking initiation and schizophrenia: a replication study in a spanish sample		Articulo	2005
The cyp2d6 poor metabolizer phenotype may be associated with risperidone adverse drug reactions and discontinuation.	Journal of clinical psychiatry	Articulo	2005
The dosing of atypical antipsychotics	Psychosomatics: the journal of consultation and liaison psychiatry	Articulo	2005
Caffeine intake in outpatients with schizophrenia	Schizophrenia bulletin	Articulo	2004
Cytochrome p450 2d6 and antidepressant toxicity and response: what is the evidence?	Clinical pharmacology and therapeutics	Articulo	2004
	.Journal of clinical		

Haloperidol half-life after chronic dosing.	Journal of clinical psychopharmacology	Articulo	2004
Possible individual and gender differences in the small increases in plasma prolactin levels seen during clozapine treatment.	European archives of psychiatry and clinical neuroscience	Articulo	2004
Postmortem clozapine levels.	Journal of clinical psychopharmacology	Articulo	2004
Toxicity of dipyrindyl compounds and related compounds.	Crc critical reviews in toxicology	Articulo	2004
Variables associated with high olanzapine dosing in a state hospital.	Journal of clinical psychiatry	Articulo	2004
A pilot study of plasma caffeine concentrations in a us sample of smoker and nonsmoker volunteers	Progress in nneuro-psychopharmacology & biological psychiatry	Articulo	2003
A pilot study on a gene-hormone interaction in female suicide attempts	European archives of psychiatry and clinical neuroscience	Articulo	2003
Association between the menses and suicide attempts: a replication study	Psychosomatic medicine	Articulo	2003
Glucuronidation enzyme genes and psychiatry	International journal of neuropsychopharmacology	Articulo	2003
Polydipsia: a study in a long-term psychiatric unit	European archives of psychiatry and clinical neuroscience	Articulo	2003
Schizophrenia and tobacco smoking in a spanish psychiatric hospital		Articulo	2003
Serious respiratory infections can increase clozapine levels and contribute to side effects: a case report	Progress in nneuro-psychopharmacology & biological psychiatry	Articulo	2003
Serum antimuscarinic activity during clozapine treatment	Journal of clinical psychopharmacology	Articulo	2003
Excessive antipsychotic dosing in two state hospitals	Journal of clinical psychiatry	Articulo	2002
Initiation of daily smoking and nicotine dependence in schizophrenia and mood disorders.		Articulo	2002
Schizophrenia and tobacco smoking: a replication study in another us psychiatric hospital		Articulo	2002
Total cotinine in plasma: a stable biomarker for exposure to tobacco smoke	Journal of clinical psychopharmacology	Articulo	2002
A simple high performance liquid chromatographic method for the quantification of total cotinine, total 3'-hydroxycotinine and caffeine in the plasma of smokers.	Journal of pharmaceutical and biomedical analysis	Articulo	2000
An extension of a pilot study: impact from the cytochrome p450-2d6 (cyp2d6) polymorphism on outcome and costs in severe mental illness.	Journal of clinical psychopharmacology	Articulo	2000
