

# ANA GILA MEDINA

Grupo de Investigación: Estudio de las Enfermedades Hepáticas y Cáncer colorrectal. (Cod.: CTS227)

Departamento: Sistema Sanitario Público de Andalucía. Hospital Universitario San Cecilio  
Código: 48011

Ficha del Directorio

## Producción 17

Artículos (17) Libros (0) Capítulos de Libros (0) Tesis dirigidas (0)

Evolución producción

## Proyectos dirigidos 0

Proyectos (0) Contratos (0) Convenios (0)

## Actividades 0

| Titulo publicación   | Fuente   | Tipo     | Fecha |
|--|--|----------|-------|
| Influence of hla class i, hla class ii and kirs on vertical transmission and chronicity of hepatitis c virus in children   | Plos one   | Articulo | 2017  |
| Entecavir has high efficacy and safety in white patients with chronic hepatitis b and comorbidities  | European journal of gastroenterology and hepatology          | Articulo | 2015  |
| Prospective study. effectiveness and safety of first-generation protease inhibitors in clinical practice: hepatitis c virus patients with advanced fibrosis                                    | World journal of gastroenterology                            | Articulo | 2015  |
| Melatonin reduces endothelin-1 expression and secretion in colon cancer cells through the inactivation of foxo-1 and nf- $\kappa$ B  | Journal of pineal research                                   | Articulo | 2014  |
| Importance of interleukin-10 and il-6 during chronic hepatitis c genotype 1 treatment and their relation with il28b.   | Cytokine   | Articulo | 2013  |
| Histological and immunohistochemical assessment of liver biopsies in morbidly obese patients   | Histology and histopathology. cellular and molecular biology | Articulo | 2012  |
| Plasma ribavirin trough concentrations during treatment of chronic hepatitis c in genotype-1 patients.   | Journal of clinical gastroenterology                         | Articulo | 2012  |
| Genetic variation in interleukin 28b with respect to vertical transmission of hepatitis c virus and spontaneous clearance in hcv-infected children   | Hepatology   | Articulo | 2011  |
| Hepatic expression of adiponectin receptors increases with non alcoholic fatty liver disease progression in morbid obesity in correlation with gpx1.   | Obesity surgery  | Articulo | 2011  |
| Hepatic expression of adiponectin receptors increases with non-alcoholic fatty liver disease progression in morbid obesity in correlation with glutathione peroxidase 1.                       | Obesity surgery  | Articulo | 2011  |
| Importance of host genetic factors hla and il28b as predictors of response to pegylated interferon and ribavirin   |  | Articulo | 2011  |
| La respuesta virológica al tratamiento con adefovir dipivoxil predice el desarrollo de resistencias a largo plazo en pacientes con hepatitis crónica b hbeag negativo previamente no tratados. | Gastroenterología y hepatología                              | Articulo | 2011  |
| Virological response to adefovir dipivoxil predicts the long-term development of resistance in previously untreated patients with hbeag-negative chronic hepatitis b                           | Gastroenterología y hepatología                              | Articulo | 2011  |
| Hepatitis crónica b: aspectos practices sobre el tratamiento.  | Revista andaluza de patología digestiva online               | Articulo | 2010  |
| Mutations in e2-pephd, ns5a-pkrbd, ns5a-isdr, and ns5a-v3 of hepatitis c virus genotype 1 and their relationships to pegylated interferon-ribavirin treatment responses.                       | Journal of virology  | Articulo | 2008  |
| Quasispecies as predictive factor of rapid, early and sustained virological responses in chronic hepatitis c, genotype 1, treated with peginterferon-ribavirin.                                | Journal of clinical virology                                 | Articulo | 2008  |
| Insulin resistance impairs sustained response rate to peginterferon plus ribavirin in chronic hepatitis c patients   | Gastroenterology   | Articulo | 2005  |
