Titulo publicación	Fuente	Tipo	Fecha
The discordance between subjectively and objectively measured physical function in women with fibromyalgia: association with catastrophizing and self-efficacy cognitions. the al-ándalus project	Disability and rehabilitation	Articulo	2018
Adaptation profiles comprising objective and subjective measures in fibromyalgia: the al-ándalus project	Rheumatology	Articulo	2017
Association of dietary habits with psychosocial outcomes in women with fibromyalgia: the al-ándalus project.	Journal of the academy of nutrition and dietetics	Articulo	2017
Association of sedentary time and physical activity with pain, fatigue, and impact of fibromyalgia: the al-andalus study	Scandinavian journal of medicine & science in sports	Articulo	2017
Association of sedentary time and physical activity with pain, fatigue, and impact of fibromyalgia: the al-ándalus study.	Scandinavian journal of medicine & science in sports	Articulo	2017
Do women with fibromyalgia present higher cardiovascular disease risk profile than healthy women? the al-ándalus project	Clinical and experimental rheumatology	Articulo	2017
Independent and joint associations of physical activity and fitness with fibromyalgia symptoms and severity: the al-ándalus project.	Journal of sports sciences	Articulo	2017
The potential of established fitness cut-off points for monitoring women with fibromyalgia: the al-ándalus project	International journal of sports medicine	Articulo	2017
An exercise-based randomized controlled trial on brain, cognition, physical health and mental health in overweight/obese children (activebrains project): rationale, design and methods.	Contemporary clinical trials	Articulo	2016
Association of physical fitness with depression in women with fibromyalgia	Pain medicine	Articulo	2016
Association of dietary habits with psychosocial outcomes in women with fibromyalgia: the al-ándalus project	Journal of the academy of nutrition and dietetics	Articulo	2016
Association of physical fitness and fatness with cognitive function in women with fibromyalgia	Journal of sports sciences	Articulo	2016
Associations between patterns of active commuting and socioeconomic factors in women with fibromyalgia: the al-ándalus project	Clinical and experimental rheumatology	Articulo	2016
Associations between patterns of active commuting and socioeconomic factors in women with fibromyalgia: the al-ándalus project	Clinical and experimental rheumatology	Articulo	2016
Factor structure of the positive and negative affect schedule (panas) in adult women with fibromyalgia from southern spain: the al-andalus project	Peerj	Articulo	2016
Factor structure of the positive and negative affect schedule (panas) in adult women with fibromyalgia from southern spain: the al-ándalus project	Peerj	Articulo	2016
International fitness scale (ifis): construct validity and reliability in women with fibromyalgia: the al-andalus project		Articulo	2016
Physical fitness is associated with anxiety levels in women with fibromyalgia: the al-ándalus project	Quality of life research	Articulo	2016
Physical fitness reference standards in fibromyalgia: the al-andalus project	Scandinavian journal of medicine & science in sports	Articulo	2016
Subgroups of fibromyalgia patients using the 1990 and the modified 2010 american college of rheumatology criteria: the al-ándalus project	Clinical and experimental rheumatology	Articulo	2016
The moderator role of perceived emotional intelligence in the relationship between sources of stress and mental health in teachers	The spanish journal of psychology	Articulo	2016
The association of total and central body fat with pain, fatigue and the impact of fibromyalgia in women: role of physical fitness	European journal of pain	Articulo	2016

Impact of fibromyalgia in women, role of physical fitness			
Association of physical fitness with pain in women with fibromyalgia: the al-áandalus project	Arthritis care & research	Artículo	2015
Association of different levels of depressive symptoms with symptomatology, overall disease severity, and quality of life in women with fibromyalgia	Quality of life research	Artículo	2015
Cost-effectiveness of an exercise intervention program in perimenopausal women: the fitness league against menopause cost (flamenco) randomized controlled trial	Bmc public health	Artículo	2015
Criterios diagnósticos, composición corporal, condición física, actividad	Fm, sfc y ssqm un auténtico reto para la ciencia	Capítulo de libro	2015
Criterios diagnósticos, composición corporal, condición física, actividad física y ejercicio físico en fibromialgia: el proyecto al-áandalus	Fm, sfc y ssqm. un auténtico reto para la ciencia	Capítulo de libro	2015
Independent and combined association of overall physical fitness and subjective well-being with fibromyalgia severity: the al-áandalus project.	Quality of life research	Artículo	2015
Inter-accelerometer comparison to measure physical activity and sedentary time in female fibromyalgia patients: the al-áandalus project	Clinical and experimental rheumatology	Artículo	2015
International fitness scale (ifis): construct validity and reliability in women with fibromyalgia: the al-áandalus project	Archives of physical medicine and rehabilitation	Artículo	2015
Validity and reliability of self-reported flexibility with the international fitness scale in women with fibromyalgia: the al-áandalus project.	Revista andaluza de medicina del deporte	Artículo	2015
Are there differences in quality of life, symptomatology and functional capacity among different obesity classes in women with fibromyalgia? the al-áandalus project	Rheumatology international	Artículo	2014
Associations between patterns of active commuting and socioeconomic factors in women with fibromyalgia: the al-áandalus project.	Revista andaluza de medicina del deporte	Artículo	2014
Characteristics of attack phases in boys' 14-and-under basketball competition		Artículo	2014
Reliability of the alpha environmental questionnaire and its association with physical activity in female fibromyalgia patients: the al-áandalus project	Journal of sports sciences	Artículo	2014
Validation of the modified 2010 american college of rheumatology diagnostic criteria for fibromyalgia in a spanish population	Rheumatology	Artículo	2014
Spanish adaptation and psychometric properties of the sedentary behaviour questionnaire for fibromyalgia patients: the al-andalus study.	Clinical rheumatology	Artículo	2013
Diferencias en el estilo de juego de ataque entre el primer y el último clasificado en la liga española de baloncesto amateur (liga eba)	Kronos (villaviciosa de odón)	Artículo	2012
Land and water based exercise intervention in women with fibromyalgia: the al-andalus physical activity randomised controlled trial	Bmc musculoskeletal disorders	Artículo	2012
Land- and water-based exercise intervention in women with fibromyalgia: the al-andalus physical activity randomised control trial	Bmc musculoskeletal disorders	Artículo	2012
Recomendaciones de actividad física para adultos sanos. revisión y situación actual.		Artículo	2012
Recomendaciones de ejercicio físico en adultos	Actividad física en poblaciones especiales. salud y calidad de vida	Capítulo de libro	2011
Usefulness of tenderness to characterize fibromyalgia severity and symptomatology in women	Clinical and experimental rheumatology	Artículo	2011
Usefulness of tenderness to characterise fibromyalgia severity in women	Clinical and experimental rheumatology	Artículo	2011

Características de las dimensiones y subdimensiones de la personalidad en jóvenes jugadores de baloncesto	Cuadernos de psicología del deporte	Articulo	2009
Characteristics of the dimensions and sub-dimensions of young basketball players personalities.	Revista de psicología del deporte	Articulo	2009
